There is a small tear (approximately 1" long) in center of swastika and one (approximately 1" long) approximately 9" in from right hand side. The hanging side of the flag is rope sewn into the leading edge of the flag with loops on top and bottom of this section. Flag is made of heavy canvas or some other type of cloth.
25	<b>German Luftwaffe Paratrooper Gravity Knife</b>	This knife is in very good condition all around with working marlin spike and gravity controlled knife. The blade measures 4" from hilt and the overall length of the knife (as shown in picture) is approximately 14" from point to point. The marlin spike is in good shape and is waffenamt with the stickbird having a 3 in his belly. The blade release actuator is stamped 85. The blade is marked Paul Weyerberg and Co. Solingen with the traditional mark of the sword in wreath pattern, and beneath this the German word for stainless steel, "Rostfrei".

26	<b>Paul Weyersberg and Co, Solingen German naval dagger</b>	This dagger measures approximately 16 1/2" from tip to tip in scabbard, blade is approximately 10" long from tip to hilt. Gilded brass hilt fittings show very little surface wear to pommel and cross guard, eagle & swastika pommel are in excellent condition. The off-white celluloid-over-wood grip is unaltered and is complete with tight twisted brass wire wrap. Dagger s complete with detailed oak leaf scabbard with suspension bands.
27	<b>Sterling silver hair brush stamped with SS and swastika</b>	The brush measures approximately 9" in length and is embossed with the following (reading top to bottom) swastika, 12.7.42, SS. Unsure of meaning, or origin of the inscription. Brush has a crack near the bristles as noted in the picture- both sides have about the same crack.
28	<b>Nazi German ceremonial eagle and swastika flag topper</b>	The unit looks to be polished aluminum or some other metal- the eagle has a wingspan of approximately 9 1/2" and the overall height is approximately 9 3/4" tall. The black has worn off parts of the swastika and there is some wear throughout the piece. In very good overall condition.
29	<b>Skull smoking pipe with .900 silver shaft and embossed inscription with SS</b>	The shaft inscription surrounds the SS mark and reads: Bur Grinerung im meinz Dienste in der Konigsberg Dst. Pr. There is a 900 stamped at the base where the base and shaft connect. Very ornate designs up the shaft, detailed skull possibly made of porcelain with small chip at the rear of skull as noted in picture.

42	<b>Wood carved wall hanging- Haus Wachenfeld- with swastika</b>	This looks to be a hand carved wall hanging showing great detail. No initials or distinguishing artist marks found. "Haus Wachenfeld" was built in 1916 for a banker named Winter, as a vacation cottage (his wife's maiden name was Wachenfeld). It was a modest house, with only one large room and a kitchen on the main floor. Through his half-sister Angela Raubal, Hitler rented this house in 1927 for 100 Reichsmarks per month (some sources say in 1928), and he secured the rights to purchase it in 1932. He bought the house in June 1933 for 40,000 Goldmarks. After his election as Reichskanzler he commissioned architect Alois Degano to remodel the house, first with a sunroom added to the front (where there had been only an open front porch), a garage with a terrace on top, and additional out-buildings (later the Berghof Adjutancy). The major modifications were completed in mid-1933, with further small changes in 1934.

Liner is intact and in good condition overall. The number stamped on the inside rear of the helmet is 20364.
97	<b>WW 2 German Nazi double decal M40 helmet- dark green</b>	This helmet shows wear on top and shows multiple paintings. Helmet liner intact and in good condition- no number visible inside due to multiple coats of paint.
98	<b>WW 2 German Nazi double decal SS M16 helmet</b>	This helmet shows wear to the black paint but decals are intact on both sides. SS runes on the right side of the helmet and divisional on the left. No liner in this helmet and no identifying number inside. Good structure and condition overall

99	<b>WW 2 German Nazi double decal M16 helmet- field green</b>	This helmet shows wear to the top of the helmet and looks to have original paint (not repainted due to weather or location changes as with most helmets). Swastika and division decals look to be in good condition and liner is intact in in very good condition.
100	<b>Civil Defense Helmet</b>	This helmet that has no markings looks to be a type of Civil Defense Helmet, but not sure. Helmet is almost in perfect condition besides some scratches and scuffs. Liner inside of helmet in excellent condition also.
101	<b>Arisaka Type 30 Rifle, Cal. 6.5mm w/Hook Safety</b>	This rifle is serial number 444xxx, has a 31.5" barrel with cleaning rod. Graduated rear open "V" sight up to 2000 meters. Mfg. at the Koishikawa, Tokyo Arsenal. Has the "Hook Type" safety, Royal chrysanthemum stamp on top of receiver. Has stamps on buttstock. Buttstock has some splits and repairs but all else on rifle looks to be in good condition.
102	<b>Arisaka Type 99 Rifle, Cal. 7.7mm w/Graduated Rear Sight.</b>	This rifle is serial number 554xx, has a 26" barrel, cleaning rod missing, graduated rear sight to 1500 meters. This bolt action rifle dated around 1938 has a two piece buttstock that shows the split, but overall looks to be in good condition for it's age.
103	<b>Arisaka Type 38 Rifle, Cal. 6.5mm, w/Shoulder Strap.</b>	This rifle from the Mukden, Manchuria Arsenal, is serial number 104xx, has a 31.5" barrel, missing cleaning rod and has a graduated rear "V" sight up to 2400 meters. Two piece buttstock shows split, all else on rifle looks good for it's age.
104	<b>Carcano Model 1941 Rifle.</b>	No markings on this rifle but believed to be a Carcano Model 1941 Rifle that is 6.5mm Cal. And has a 27.5" barrel. Missing the magazine, has a graduated rear sight to 2400 meters. Has the cleaning rod and looks to be in good condition with a small split on top of wrist stock behind bolt. Also comes with sling swivels.
105	<b>Arisaka Type 38 Rifle.</b>	No markings on this rifle but believed to be a Type 38 rifle which would make it a 6.5mm rifle. Rifle has an approx. 30" barrel, graduated rear sight up to 2400 meters and Japanese cartouche on right side of buttstock. Missing cleaning rod, but looks to be in good condition overall.
106	<b>Japanese Cavalry Troopers Sword with Matching Numbers</b>	This Japanese Cavalry Troopers Sword comes with the scabbard and has matching numbers to sword. Serial number 71664. Hand guard has the Koishikawa Arsenal marking. Approx. 12" of the end of the blade looks to have been filed or ground to sharpen. Blade is approx. 33" long. This sword is in overall very good condition.

107	<b>Japanese Samurai NCO Sword with Matching Numbers</b>	This Japanese Samurai NCO Sword has an aluminum handle and has the Koishikawa Arsenal markings. Number 84638 is on blade and throat of scabbard. Several nicks in blade about ¾ way down. Blade is approx. 27.5" in length. Some dents or dings in scabbard but overall both in good condition for it's age.
108	<b>Mauser Police 1939 S/42 9mm Sear Safety Variation</b>	This Luger is the Police variation which is denoted by the "sear safety" on the left side of the pistol. Approx. 600 guns were produced with "sear safeties" for the German Police and these were primarily found in the "m" and "n" serial ranges. This pistol has the mid-test eagle on the right side. The gun retains approx. 95% original condition with the wear occurring to the blue on the high edges, rails and grip straps of the gun. All numbers match, has a 4" barrel and mint bore. The grips show high checkering with very little evidence of moderate use. The magazine for the gun is marked correctly with the matching serial number "n", "+", and Eagle/83. This looks to be the correct gun in every way. Serial number 84xxn.
109	<b>Mauser Military "1939" Date, 42 Code 9mm Luger w/3 Digit Serial No.</b>	This Luger has wooden grips and all correct markings. The barrel length is 4" and has a mint bore. The guns retains 90% original blue condition with the internal parts corresponding to the outside condition of the firearm. Acceptance markings are correct for this gun including the double stampings of the Eagle/655 as well as the Army test proof. Looks to be a "y" serial number range gun which puts it in the Kriegsmarine procurement range although the gun is not marked with a Navy property code. The blue loss occurs to be the high edge areas, rails and grip straps. The magazine is correct and numbered to the gun with the serial number "y" and Eagle/655 acceptance stamp. Serial number is 7xxy. Very nice clean early Military Luger.
110	<b>Mauser Military "1936" Date S/42 9mm Luger.</b>	This pistol is a standard Army variation. This gun has a 4" barrel with a lightly frosted bore and moderate blue loss due to holstering and handling. This gun is correct in everyway and retains over 90% original blue and straw. The pistol comes with a magazine that is numbered to the gun. Serial number 79xx. Has the two Eagle/63 Army acceptance stamps on right side of receiver along with the Army test proof.

111	<b>Mauser Banner “1940” Date German Police Luger</b>	This 1940 Police Eagle/L sear safety Luger has matching numbers down to the magazine and almost looks new. No cold blue or re-bluing of this gun at all. The only wear comes to the high edge areas which are minimal as well as well as the rails and rear of the receiver from test firing. This gun has a 4” barrel with a mint bore and same with the internal parts. The magazine which is numbered to the gun looks as though it was just inserted in the gun and left there. This is the Eagle/L variation with 62 German Police reported in the 2589x – 5772x serial range. The total estimated for the year was 3300. No doubt, this Luger would highlight any collection. Serial number 35xx (x).
112	<b>Mauser Banner “1938” Date Commercial Luger w/RUST Safety.</b>	This commercial Luger has the “v” suffix in the serial number. The pistol retains 95% of it’s original blued condition with the wear occurring to the high edge areas, rails and grip straps. The internal parts have the condition of the outside of the pistol. The magazine is numbered 4574 with the “v” suffix, “+” and Eagle/63 with very little wear. The is a “RUST” safety gun which is slightly rarer than most guns of this period. This gun has the C/U proof on the left side. Very nice 9mm Luger Pistol. Serial number is 23xxv.
113	<b>Mauser Military “1936” Date S/42 Kriegsmarine (Navy) 9mm Luger.</b>	This pistol is a 1936 date Luger, the front strap is marked lengthwise “O.2420”. This is the indication that’s makes this pistol part of the Kriegsmarine variation of which approx. 1000 guns were procured. The gun is correctly marked in every way and retains 92% of it’s original condition with the blue loss occurring to the muzzle and high edge areas. The straw shows some wear but is still very clear to the gun. The grips do show some checker flattening and wear to the front and back straps. This gun has the serial number 11xx and falls in the “l” range. Magazine is numbered “O” 2420 “l” and Eagle/63. The pistol has a 4” barrel with a bright bore. Nice early Naval Luger.
114	<b>1942 Mauser Banner Police Sear Safety Eagle/L 9mm Luger.</b>	Very nice Police Luger with the Eagle/L German Police acceptance stamp. This is a sear safety gun and the internal parts have the correct wear and patina for the gun. The grips show some light evidence of wear as do the metal parts but the pistol retains overall 92% condition with only light browning and edge wear to the high areas. The barrel is 4” in length and has a near perfect bore. The magazine is numbered 5893h and is correct for the gun era. Serial number on the gun is 36xxy. Very nice Luger for any collection!

115	<b>Remington Rand M1911A1 U.S. Army .45 Pistol.</b>	Remington Rand M1911A1 .45 Cal. Auto. Pistol with "M 1911 A1 U.S. ARMY" forward of the slide stop pin and "UNITED STATES PROPERTY" marked behind slide stop pin. Plastic checkered grips, has FJA inspection stamp and "P" on top of slide in front of rear sight, and next to mag. Release button. Some blue wear to the high edge areas and a spot of pitting on the right side of slide above M 1911 A1 U.S. Army. A very nice tight feel to this pistol and serial number is 1311xxx.
116	<b>Colt Model of 1911 U.S. Army .45 Pistol</b>	This is a Four-Digit "MODEL OF 1911 U.S. ARMY" marked slide without fire blue parts. This is serial number 24xx and going by old tag on firearm was shipped April 25, 1912. Tag that was with firearm reads: First year production- Shipped to commanding officer, Springfield Armory, Mass. April 25, 1912. This pistol has an H marked on the rear of the barrel hood until SN 7500. This pistol looks to have original checkered wood grips, a few pitting areas and blue wear. Don't miss this very early Colt .45 Auto. Pistol!!
117	<b>Colt M1911 British RAF Contract .455 Webley Cal. Pistol</b>	This extra nice Colt 1911 British contract pistol has the RAF mark on the left side in front of the slide release. Plastic checkered grips. Right side of slide is marked "COLT AUTOMATIC/CALIBRE 455". Maybe a slight scratch or scuff but all around this is a Colt that looks to be in very good to excellent condition. Serial No. W108xxx. Bottom of magazine has 2 lines that read: CAL .455/ELEY. By the serial number, this Colt was mfg. Jan. 22, 1918 to April 28, 1919. Approx. 10,000 pistols were shipped to the Royal Air Force from this serial number range and were .455 Webley caliber. Don't miss this Colt!!
118	<b>French Cavalry Pistol. Circa: 1800's</b>	This French Cavalry pistol is in excellent condition considering it's age. It looks to be a 69 cal. Pistol. On right side of plate is marked a Crown/S, has proof mark star/C in several places. Back strap is marked: CH. L. E. N. 30. This pistol is good and tight and seems to be very good mechanically. Left side of stock is stamped C.B. 1807. Very nice Pistol!!
119	<b>USMC Hospital Corpsman's Knife by Briddell</b>	This knife and scabbard is in very good condition. Blade does have some surface rust, marked U.S.M.C./BRIDDELL and has initials stamped on handle: R. SMOCK. Leather scabbard is in very good condition and is marked: USMC/BOYT/44. 120	<b>French Model 1874 "Gras" Sword Bayonet Mfg. 1874-1885</b>	This Sword/Bayonet is in very good condition and has matching numbers on metal scabbard and sword. Top of blade has writing in French and translates: "Manufactured at the armory at St. Etienne, June 1874". Has wood/brass handle and besides some tarnish spots on blade and surface rust on metal scabbard, this Sword/Bayonet is a must for the collector!!
121	<b>Australian 1943 Pattern 1907 Bayonet w/Scabbard.</b>	This bayonet is marked on blade: MA/1907/1 and handle is marked: SLAZ/56 on both sides. Has a serial number C 46250. Blade has some rough spots on the blade edge but all else good condition. Leather scabbard with metal top and tip is in good condition but does have a cut on back side near middle. Metal top of scabbard is marked with an OA which is Orange Arsenal, leather on backside is stamped: MANGROVITE '42. Nice Bayonet!!
122	<b>Lee-Enfield Bayonet w/Scabbard</b>	This looks to be a Lee-Enfield Bayonet and is in very good condition. Scabbard which is leather with metal top and tip has some surface rusting. Please view photos of proof marks on blade. Good spring action in release button and nice edge on blade.
123	<b>Japanese Naval Sword For Senior and Junior Officers.</b>	This Japanese Naval Sword w/Scabbard was for Senior and Junior Officers and dates 1896-1914. This sword looks to be in very good to excellent condition. The scabbard has had the tip broken off. This is one of the nicest swords we have had.
124	<b>Japanese Sword w/Menuki on Both Sides of Handle.</b>	This ornate sword looks to be in very good condition besides the tip of the blade which looks to have been bent (1/8-1/4"). All other on decorated scabbard and sword in very good condition.
125	<b>WWII Japanese Army Samurai Wakisashi Sword</b>	This looks to be a Wakisashi type Samurai sword as used by the Imperial Japanese Army. The overall length of the blade end to end is approx. 24". Tang of the blade is signed (I would assume by the master who made the sword). Handle wrapping is very nice and tight with the menuki on both sides of handle. Scabbard looks to be wood with a plastic coating and some of the coating shows some age cracks. Excellent edge on blade with some coloring. Overall a very nice sword.

141	<b>1936 Mauser Banner Dutch/Netherlands Military or Police Luger</b>	This Luger is marked on the left frame with C/U. Has a 4" barrel with strawed small parts and walnut grips. The Dutch markings include the "RUST" w/Arrow safety. The magazine is a different serial number but is a period clip. The pistol retains 95% condition with the blue loss coming to the high edge areas, back strap and rails of the gun. The straw has become a little light in color but is in overall good condition. The magazine is serial number 9956a, E/655. The front strap is marked "K.M." and is probably someone's initials. The pistol is very clean as are the internal parts which correspond to the overall condition. Serial number on pistol 20xx.
142	<b>1939 Mauser Banner German Police Sear Safety w/Holster and Extra Mag.</b>	This particular serial numbered gun in Jan C. Still's book falls under the German Police Sear Safety according to the pistols serial number. The pistol is variation #1 "E/K" on page 146 of Jan C. Still's book and is noted as one of thirty one reported in the 7284v-8056v serial range. The pistol retains 98% original blued condition with the wear occurring to the high edge areas, rails and grip straps. The internal parts are as nice as the outside of the pistol. Has a 4" barrel with near perfect bore. The pistol is correctly numbered in all areas and also both magazines are numbered to the gun. The magazine in the pistol is number 1, 73xx (v) and the one in holster is number 2, 73xx (v)(+). All police units were issued Lugers with one extra magazine (number 2), very few issued a third magazine. This is a "GESICHERT" safety gun. The holster is marked on the reverse side LENGFELD, E/WaA1??, 1938. Also comes with loading tool. Serial number on pistol is C/U, 73xx (v). Very nice rig!!

143	<b>Mauser Banner Portuguese 7.65mm Luger Squeeze Safety w/Holster and Tools.</b>	This Luger is one of about 564 that were factory marked with a "GNR" over the chamber. It has "SEGURANCA" marked in the safety recess. These were issued to the Guardia Nacional Republicana, a barracked troop with police functions that answered directly to the regime. This pistol falls in the 1921v-2499v serial number range. The grips show some light evidence of wear as do the metal parts but the pistol retains and overall 95% condition with only light browning and edge wear to the blue areas. The barrel is 4.75" long with a near perfect bore and tapered appearance. The wear to the outside of the pistol appears on the high edge areas, rails and rear of the frame. The holster is marked on the reverse side 636 and "E" 36. The tools are not marked but are correct to the era of the gun. The magazine is a wooden bottomed mag. and is marked "Germany" across the bottom. Serial number on pistol is C/U 24xx (v). Very nice Luger for any collection!!
144	<b>1940 Mauser Banner German Police Sear Safety E/C Variation.</b>	Very nice example of a 1940 E/L sear safety Luger. Looks to have had no cold blue or re-bluing at all. The wear only comes to the high edge areas which are minimal as well as the rails and rear of the receiver. This pistol has a 4" barrel with a mint bore and corresponding internal parts. The magazine which is numbered to the gun with a 1, 18xx (x). It comes with a second magazine that is also numbered to the gun and is marked 2, 18xx (x). This is the E/C variation with 19 German Police reported in the 1133x-2482x serial range. The holster does not have a tool and does not match the condition of the gun and was probably put with it later. The inside flap of the holster reads: "LT. R.J. Loe, 13th Tank Div.". The holster is period and is marked on the reverse "dla/41, E/WaA195, P.08". Serial number on pistol is 18xx (x). Don't miss this Luger!!
145	<b>1937 Mauser Banner Commercial or Military Commercial w/Holster</b>	This Luger retains 98% original blued condition with wear occurring to high edge areas, rails and grip straps. The internal parts correspond to the condition of the outside of the pistol. The barrel is 4" long with a near perfect bore. The gun is numbered correctly in all areas. The magazine is also correctly numbered to the gun and shows very little wear. It is marked 5, 66xx (u) and the gun is serial number C/U, 66xx (u). This Luger also comes with a holster and tool that is marked on reverse side "epf 41, E/WaA195, P.08". Small hole on front flap of holster.

146	<b>Mauser Military "1937" Date S/42 Kriegsmarine (Navy) 9mm Luger</b>	This is a Kriegsmarine variation of the 1937 Luger. It has the "N/2388" property number across the back strap which indicates German Navy. It is estimated that there were only a few hundred of these pistols procured by the German Navy and mostly found in the "r" and "s" serial number range. (This is according to "Third Reich Lugers" by Jan C. Still) This pistol has all the correct markings for the 1937 with the correct acceptance markings E/63. Has a 4" barrel, shiny bore and plenty of rifling. The internal parts correspond with the condition of the gun overall. The right wooden grip has had a split from top to bottom and has had glue on back side to keep from coming apart. The gun retains a 95% condition with the blue loss coming on the high edge areas, back strap and rails of gun. The straw has become a little light in color but is overall good condition retaining 90% overall. The magazine is numbered 622 with E/63. This pistol is serial numbered 98xx (s).
147	<b>Mauser Military "1939" Date 42 Code 9mm Luger w/Holster</b>	This pistol has the 42 code which replaced the S/42 code in early 1939. This Luger bears the double E/63 stamp as well as the late army test proof. This pistol looks to be in 95% condition with the wear coming on the high edge areas, rails and grip straps. The strawing is slightly weak which would indicate original strawing but not confirmed. The internal parts correspond with the condition of the outside of the gun. The serial numbers are all correct on the gun and is 86xx(r). Magazine is marked 7215u, +, E/63. The black leather holster does not have a loading tool or extra mag. and is marked on reverse side "Karl Bocker, 1939, Waldbrol", late test Eagle/M and WaA142?

148	<b>Mauser Military "1940" Date 42 Code 9mm Luger Kriegsmarine (Navy) w/Holster</b>	<p>This Navy Luger has the E/655 acceptance stamps and late Army test proof. Only about 2000 of these Kriegsmarine Lugers were marked with the "N" or "O" property markings and this is one of those Lugers. This Luger is an early serial number with the correct property number on the back strap of "N/4808". The pistol shows 96% original condition with the only wear occurring to the high edge areas, rails and grip straps. The internal parts correspond in condition to the outside of the pistol. Has a 4" barrel and near perfect bore. Right wooden grip has a split approx. 1/2" long at top near trigger. The pistol comes with a matching magazine and is marked on the end "N 4808", 2xxf serial number as well as the "x" and "+" markings. The pistol is also serial number 2xxf. The holster is deep brown/black in near perfect condition with the "LEDERWARENWERK, CURT VOGEL, COTTBUS, 1939" markings as well as Eagle/WaA100 and the Eagle/M stampings. Great low serial number pistol!!</p>
149	<b>Mauser Military 41-42 "KU" Luftwaffe 9mm Luger (Rare) w/Holster</b>	<p>This Luger has a two digit chamber date and P.08 markings on left side of frame. This gun is a "KU" "41-42" variation of which there were only an estimated 2300 guns that were produced. The left side of the barrel features the Luftwaffe proof and the frame has the serial number KU41xx. The right side of the frame also has the Luftwaffe marking. The pistol has the correct black plastic grips and black tip magazine. The mag. is marked Fxc, Eagle/37 and P.08. The pistol has a 4" barrel and near perfect bore. The internal parts of the pistol are as nice as the outer wear. The pistol retains 94% original blue with a few minor handling marks and holster wear on high edges areas. There is a few small scratches on the front trigger guard and left side plate of the pistol. The holster has an unmarked tool and no extra magazine. Some stitching missing from tool pouch. The holster is correctly marked "A. FISCHER, BERLIN, 1941" with Eagle/Swastika. Looks to be a rare Luger!</p>

150	<b>1937 Mauser Banner Royal Netherlands Navy Procurement Range Luger.</b>	The 1937 dated Royal Netherlands Navy Lugers lacked a serial number suffix and this one is serial number 22xx. It has a "RUST" safety marking. This Luger in the lower serial number range bears the C/U proof marks. This pistol retains 95% condition with the blue loss coming on the high edge areas, back strap and rails of the gun. The straw has become a little light in color but is in overall good condition retaining 90% overall. A couple of small scratches or slight dings on the left side of frame. The magazine is numbered 3193, "I", "+", "E/63". Nice Luger!!
151	<b>Mauser Military "1940" Date 42 Code 9mm Luger with S/A Insignia.</b>	This 1940 date, 42 code Luger has the E/655 acceptance stamps and the late Army test proofs. This Luger is marked with a S/A insignia on the left side of the frame which is the Sturmabteilung and in German means "Storm detachment". This Luger falls in the serial number range to be a Navy Luger, but does not have the Navy acceptance or Luftwaffe acceptance on the gun. The pistol shows 95% original condition with only wear occurring to the high edge areas, rails and grip straps. The internal parts correspond in condition to the outside of the gun. Has a 4" barrel with near perfect bore. The pistol has numbers that all match including the magazine. The magazine is marked on the end Eagle/37, 76xxe. The gun is serial number 76xxe. Don't miss this one!!
152	<b>Luger Holster</b>	This black/brown leather Luger holster is in used but looks to be in very good condition. Reverse of holster is marked "jme/1942", Eagle/Swastika over WaA14, P.08. Nice detailed stitching all around!
153	<b>Luger Holster</b>	This brown leather Luger holster shows wear but stitching and all around in good condition. Reverse side is marked "cea 1942", Eagle/Swastika over WaA706, P.08.

154	<b>Mauser Military "1938" Date S/42 9mm Luger with Both Acceptance Stamps and Holster.</b>	This is an exceptional Luger having both Military acceptance stamps. In 1938 Lugers were accepted with the E/63 and sometimes the E/83 acceptance stamps like this Luger. This is a transition gun having both acceptance marks. This pistol retains 95% original condition with only blue wear occurring only to the rails and grip straps of the gun. The gun has a 4" barrel and wooden grips show crisp and high checkering. The pistol comes with 2 magazines and a deep brown leather holster. Both mags are matching serial numbers to the gun. The one in the pistol is marked 25xxd and E/83, the other mag is marked 25xxd, +, E/83. Beautiful holster with no loading tool and on reverse is marked "GEBRUDER KLINGE, DRESDEN, 1936 , Drooped Winged Eagle/WaA142. No doubt, collection worthy!!
155	<b>Mauser Military "G" Date S/42 9mm Luger w/Holster</b>	Great example of a late "G" date Luger represented by the Eagle/63 double stamping on the right side of the receiver with the early Eagle (dropped wing) German Army proof. The secret date code for 1935 was the "G" and was applied to the chamber. This pistol shows light holster wear to the high edges and shows some light wear of use along the rails. The straw and blue are very strong on this gun and the internal parts correspond to the strong condition of this pistol. The straw is excellent on this pistol and it probably saw little if any use in it's life. The magazine is numbered to the gun and is bright metal with no blue. Mag is marked 13xxe, Eagle/63. Pistol is serial number 13xxe. Has a 4" barrel and great wooden grips. The black/brown leather holster has silver studs and has no extra mag or tool. Reverse of holster is marked "BERLIN 1936" and has the German Army early acceptance stamp. Very nice Luger!!
156	<b>Russian Military Artillery Range Finder w/Tripod</b>	Russian Military Artillery Range Finder w/Tripod. This Artillery Range finder comes with a case and tripod. Numbers on range finder matches numbers on case and straps on case still have paper around buckles. Tripod has paint flaking, scratches and part of leather strap missing. Range Finder looks to be in excellent condition!
