**How the heifers were handled:**

These heifers are the siblings of the steers that sold in the Buckingham Cattlemen's Association Feeder Calf sale in August 2009. In October, Pelvic measurements and Reproductive Tract Scores tests were taken by Dr. Andy Meadows. All the heifers and natural service sires were also tested negative for BVD-PI. These females meet the Virginia Premium Assured Plus Standards.

**Breeding:**

All heifers were Synchronized and bred AI December 14 through December 19 2009. All AI pregnancies are to Mytty In Focus or MCC Daybreak. EPD's for the sire of the heifers and the natural service sires are listed on the Sire Reference Page. The heifers were ultra sounded pregnant and fetal sexed by Dr. Andy Meadows on March 3 and 4, 2010.

All heifers sell guaranteed bred on sale day.

Any heifer that shows heat within 30 days after the sale and is found open by an accredited Veterinarian with written documentation, the consignor will refund 100% of the heifer's purchase price and take possession of the heifer, or the consignor will replace the heifer with another bred heifer per buyer's choice.

If any heifer shows heat within 45 days after the sale and is found open by an accredited Veterinarian with written documentation, the consignor will refund 25% of the heifer's purchase price provide that written notice is sent to the sale committee no later than 60 days after the sale.

Heifers will sell in Producer Groups of 2 or 3. There will be no singles sold.
