Re: 320 SUDDUTTA CIR NE

Dear Sir or Madam:

According to the Okaloosa County Tax Rolls you are the owner of the property located at the above referenced address. This letter is to notify you that this property is located in or very near a flood hazard area in the City of Fort Walton Beach.

Your property may not have been flooded in the past, but because it has been designated in or near the floodplain, it runs a high risk of flood damage by a future storm. The enclosed brochure describes some topics that you should pay particular attention to, due your property's susceptibility to flooding. You should be particularly aware of flood-proofing you can do around the home and of the availability of flood insurance.

Whereas most homeowner's insurance policies cover damage from hurricanes, they do not cover damage from a flood, even if it occurred during a hurricane. The City of Fort Walton Beach participates in the National Flood Insurance Program (NFIP); therefore, you can purchase a separate flood insurance policy, even if your property has been flooded in the past. Check with your insurance agent on obtaining adequate flood insurance for your property and be sure they are aware that the City participates in the Community Rating System (CRS) program. The enclosed information is being mailed to you as part of a Community Outreach Program, an activity in the CRS program, to increase public awareness of the risk of flooding. The City's Class 7 rating in the CRS program awards the floodplain properties a 15% premium discount in flood insurance.

Please take time to read the information provided as it could be very significant to the protection of your property. Other information on all the topics covered in this notice can be obtained from the City's Public Library located in downtown Fort Walton Beach at 185 Miracle Strip Parkway SE or on the City's website at www.fwb.org. (Look for the link to Emergency Preparedness and Flood Information). Effective December 6, 2002, FEMA issued a new Flood Insurance Rate Map (FIRM) of our area. The revisions to this map most likely had an effect on the flood zone of your property. Flood zone information of your property can be obtained from the City Engineering Division by calling (850)833-9648.

Sincerely,

Michael A. Bryant
